

SLAYS MEXICAN IN FUSS OVER A PET CAT

Because Joe Morales, an aged Mexican, kicked his pet cat, William Oliver, a fisherman at Anaheim Landing, fired at Morales with a rifle, and from the wound Morales bled to death in the yard of a neighbor's house. Oliver has not been arrested.

"I shot him, and I'm going to leave for a few days," said he.

The evidence gathered by Under Sheriff Iman of Santa Ana and City Marshal Mayer of Seal Beach, indicates that Morales was murdered in cold blood as he sat on a box in front of a fire at which he was cooking his supper.

Morales lived in a hut at the end of the group of houses farthest from the Anaheim Landing pavilion. For several years he has been making a living fishing. He was known as Mexican Joe.

About fifty yards from Joe's hut, William Oliver lived in a boat. He arrived at the Landing three or four months ago from Oregon. Relatives live in Texas.

A stray cat, black and white and lonesome, took up its abode at Oliver's place, and soon became a pet of the fisherman. The cat that was welcome at Oliver's boat was not wanted at Morales' hut, and as Oliver grew fond of the pet, Morales kicked the cat because it got under-foot and into his grub, Oliver became angry, and quarrels ensued. A few days ago, Oliver drew a knife and threatened to stab Joe.

Whether or not there was some act that brought about last night's shooting is not known. About 6 o'clock a shot was fired. A few minutes later Joe staggered into the yard of Timothy Carroll's place, where his cries brought Mrs. George Field, the housekeeper, to him. Joe told Mrs. Field that "Bill" had shot him. Joe was bleeding profusely. An artery in his left arm was severed, and from that he bled to death.

Oliver came to the back of the house with some keys that he wanted to leave for a man who was sick at the Carroll place. Mrs. Field said she asked Oliver if he had shot Joe. Then he said he did, and that he was going to leave for a few days. He disappeared in the darkness.

Under Sheriff Iman happened to be at Seal Beach, and he and the city marshal were soon on the case. No trace of Oliver could be found in the darkness. He is a man 45 years of age. The rifle he used was an old, rusty Winchester, 1876 model. The shell stuck in the barrel.

STEPHENS CARRIES COUNTY BY A MAJORITY OF 8,000 VOTES

Jackson Is Re-elected Sheriff In the Only County Contest

The voters of Orange county, or that proportion of them who expressed themselves at the polls yesterday, want Governor Stephens to continue at the head of the state administration for the next four years and they want prohibition for all time to come. They gave decisive answers to these points, for Governor Stephens received more than three to one and the prohibition initiative was supported by more than two to one.

The vote cast was about sixty per cent of the registration, this indicating a deeper interest in the election than was anticipated, for there was no excitement during the campaign and election day passed off quietly with the voters quietly attending to their knitting without any hurrahs.

Mrs. Stella Irvine, of Riverside, candidate for congress on the Prohibition ticket, was strongly supported by Republicans of the county and she polled a large vote.

Sheriff Jackson was re-elected as sheriff by a handsome majority, 103 precincts out of a total of 107 giving him 2629 majority. The Rominger amendment was snowed under in the county and the single tax issue was given the hardest jolt of all. Health insurance goes by the board by a large majority and the dentistry measure was defeated.

Following are the returns for 103 out of the 107 precincts in the county: Governor—Theodore A. Bell, Independent, 2977; Henry H. Roser, Socialist, 378; William D. Stephens, Republican, Progressive, Prohibition, 9177. Lieut. Governor—Elvira S. Beals, Socialist, 599; Jo V. Snyder, Democrat, 2931; C. C. Young, Republican, Prohibition, 8517.

Secretary of State—Frank C. Jordan, Republican, Democratic, 6970; James S. Edwards, Prohibition, 4261.

Controller—John S. Chambers, Republican, Democratic, 7401; Horace A. Johnson, Prohibition, 3066; John C. Taylor, Socialist, 613.

Treasurer—H. K. Albright, Socialist, 659; T. K. Beard, Prohibition, 2788; Friend Wm. Richardson, Republican, Democratic, 7737.

Attorney General—Harry M. McKee, Socialist, 655; Thomas M. Stewart, Prohibition, 3007; U. S. Webb, Republican, Democratic, 7195.

Surveyor General—Harry V. Wheeler, Prohibition, 3227; W. S. Kingsbury, Republican, Democratic, 7188.

Superintendent of Public Instruction—Will C. Wood, 5875; Edward Hyatt, 3808.

Sheriff—C. E. Jackson, 7088; Sam Jernigan, 4459.

No. 19. Land Values Taxation—Yes, 1415; no, 8446.

CONTROL OF WALNUT WORK PEST WILL BE SHOWN HERE

Growers Urged to Attend the Demonstrations at Tustin, W. Orange, Capistrano

The Farm Bureau co-operating with the walnut associations of the county, is arranging a number of demonstrations for the control of the codling moth worm in the walnut groves.

Prof. R. E. Smith of the University of California, who has been studying the worm situation for some time and working out a method of control, will lecture at three demonstrations, and acquaint the growers of the actual conditions in the orchard and in the tray yard. The life history of the worm will be explained and methods of control demonstrated.

The following demonstrations have been arranged for:

San Juan Capistrano—Friday afternoon, November 8th, at 2 p. m. at J. W. Ott's orchard, one and one-half miles west of town.

West Orange—Monday morning, November 11th, 10 a. m., at Fred Schleuter's orchard on La Veta avenue, one-quarter mile west of Main street.

Tustin—Monday afternoon, November 11, 2 p. m., at Capt. P. T. Adams' orchard off West Main street on Glen avenue.

All walnut growers are invited to attend these open air meetings. The Farm Bureau and walnut associations especially urge their members to be present at one of these demonstrations.

OIL STOVE BLAST BURNS TEEL HOME

Husband Called North By the Death of Brother, Wintersburg House Destroyed

An oil stove blast yesterday at noon started a fire which destroyed the four-room house on the Graves ranch at Wintersburg, occupied by Mr. and Mrs. Ed Teel and their four children. The building and contents were a total loss, the only things saved being a sewing machine and a batch of clothes which Mrs. Teel was washing outside the house. The wash boiler was on the stove at the time Mrs. Teel heard the blast, and the direct cause of the explosion is unknown. The interior of the house was immediately a mass of flames, and Mrs. Teel could not enter. Luckily, all of the children were outdoors at the time. Mr. Teel had left yesterday morning for San Francisco upon receipt of news that his brother had died there of influenza Monday night, and all neighbors were voting at the time, so no assistance in putting out the fire or saving the contents of the home was available. Mrs. Teel and children are temporarily being cared for by Mrs. W. F. Slater. The Teels expected soon to move to the Bolsa Chico Glun club property, on which they had taken a lease.

WEALTH OF FLORAL EMBLEMS SHOWS ESTEEM OF FRIENDS

Dr. Carey V. Billingsley was laid to rest yesterday in Santa Ana cemetery, where the last sad rites were said in the presence of an assemblage of relatives and friends. The services were in charge of Rev. George W. Kitzmiller, pastor of the Villa Park Congregational church, of which Dr. Billingsley was a member since boyhood, and the Elks' lodge, of which Rev. W. L. H. Benton is the chaplain. The services were impressive and touching.

Stanley Searle, a friend of the family from Los Angeles, sang the beautiful hymn, "O, Love Divine."

A wealth of beautiful floral emblems showed the great esteem in which the young physician was held and the grave was covered with the flowers.

The pall bearers were Harlowe Billingsley, Stewart Flintham, Dr. Ed. Abbott and Stanley Searle of Los Angeles, Dr. Leon Patrick of Orange and Robert C. Mize of Santa Ana.

WASTE OF SUGAR

THE following bulletin was among the most forceful and effective bits of conservation propaganda at the New York Food Show last month. It was put out by the National Sugar Refining Company of New Jersey:

"Save the waste!"

"One hundred million cups coffee used daily in United States.

"Seventy million cups tea used daily in United States.

"One hundred and seventy million cups tea and coffee.

"If even an average of half a teaspoonful of sugar per cup is left undissolved at the bottom of cups of tea and coffee the waste would be 1,700,000 pounds of sugar daily.

"Stir your sugar until it dissolves. It's estimated that one-third to one-half of all sugars used in homes is used in tea and coffee. Think it over—how is it in your home? Isn't there a chance for saving?"

Senator Warren, father-in-law of General Persing, and present Republican incumbent, together with Carey, for governor, and Representative Mondell, for congressman-at-large, all Republicans, have been elected.

The race between Mrs. Morton, Republican candidate, and Mrs. Hefferich, Democrat, for superintendent of public instruction, is very close, on the face of returns from about one-half of the state.

The standing in the second district was: Riddick, Republican, 4276; Mitchell, Democrat, 4430.

PIERRE, S. D., Nov. 6.—Senator Sterling, Republican, has been re-elected, and the Republicans have carried two and possibly three congressional districts.

Representative Royal Johnson, Republican, has been re-elected in the second district. Christopherson, Republican, succeeds Dillon, Republican, in the first. Rep. Candy, Democrat, and H. P. Atwater, Republican, were neck-and-neck in the final count in the third. The Republicans claim Atwater's election.

REPUBLICANS WIN IN NORTH DAKOTA

BISMARCK, N. D., Nov. 6.—The Republicans retain their seats—North Dakota's total representation—in the House, returns indicated today. It seemed certain that Reps. Bayer and Young have been re-elected, while J. H. Sinclair, Republican, has won in the third district, succeeding Rep. Norton, Republican. Gov. Lynn Frazier, non-partisan leaguer, apparently has been re-elected.

IDAHO NON-PARTISAN LEAGUERS DEFEATED

BOISE, Idaho, Nov. 6.—The non-partisan league was overwhelmingly defeated in Idaho, Davis, Republican, for governor, beat Samuels, nominated by the non-partisans in the Democratic primary, by 20,000. Senator Borah, Republican, has been re-elected by around 25,000.

Congressmen Smith and French, Republicans, re-elected by large majorities. The only doubt is as to Frank R. Gooding, Republican, who may be defeated by a small margin by Senator Nugent, Democrat, endorsed by the non-partisan league. The entire Republican state ticket is elected with a legislature that is overwhelmingly against the non-partisan league.

SUFFRAGE VOTE IN OKLAHOMA IS CLOSE

OKLAHOMA CITY, Nov. 6.—Senator R. M. Lowen, Republican, has been elected.

Representative Dick Morgan, Democrat, has been elected in the eighth district.

Suffrage leaders claim Oklahoma has given women the ballot, though the result is close and uncertain.

9 REPUBLICANS AND 1 SOCIALIST IN WISCONSIN

MADISON, Wis., Nov. 6.—Fairly complete returns today indicated that Wisconsin will be represented in the House by nine Republicans and one Socialist. The result in another district, the second, is close, with chances favoring the election of Rep. Voight, giving ten congressional seats to the Republicans.

DOYLE LEADS FRAZIER FOR N. DAKOTA GOVERNOR

BISMARCK, N. D., Nov. 6.—Two hundred and thirty-four complete precincts in North Dakota, including large towns and villages, show Doyle, Democrat, leading Frazier, Republican, for governor.

The count was: Frazier, 7,760; Doyle, 8,545.

SMITH AND WHITMAN RUNNING CLOSE RACE

NEW YORK, Nov. 6.—Revised figures on the New York state governorship today showed that, with 532 districts outside New York still missing, Alfred E. Smith, Democrat, had a lead of 5,422 over Chas. S. Whitman.

Whitman's supporters, however, firmly believe he has been elected.

G. O. P. GAINS THREE SEATS IN CONGRESS IN KANSAS

TOPEKA, Kans., Nov. 6.—Republicans have gained three congressional seats in Kansas, it appeared practically certain on the face of fairly complete returns today.

Republican Representatives Anthony, Little and Campbell have been re-elected, while returns indicated Republican candidates have unseated Democratic Representatives Doolittle, Helvering and Connolly.

The seventh and eighth districts remained in doubt with Republicans, claiming the defeat of Democratic Representatives Shouze and Ayers and a clean sweep of all districts.

Gov. Capper, Republican, has defeated Senator Thomson, Democrat, by a heavy majority.

Henry J. Allen, Republican, has been elected governor by approximately 100,000.

NELSON RE-ELECTED IN MINNESOTA

ST. PAUL, Minn., Nov. 6.—Senator Nelson has been re-elected and in the face of slow returns the Republicans have seated eight congressmen and the Democrats one. The result in the remaining district, the third, is close.

In all districts except the third, fourth and fifth, Republican congressmen seem to have been re-elected.

In the fifth, W. H. Newton, Republican, apparently has defeated W. C. Robertson, Democrat, for the seat of Rep. Lundeen, Republican.

Rep. Van Dyke, Democrat, is believed to have been re-elected in the fourth.

Rep. Ellsworth, Republican, and F. Simon, Democrat, were fighting a desperate battle as the count neared completion in the third. Gov. Burton, Republican, apparently is elected.

MCCORMICK WINS OVER JAMES HAMILTON LEWIS

CHICAGO, Nov. 6.—Representative Medill McCormick, Republican, has been elected senator from Illinois, over Senator James Hamilton Lewis, it seemed certain early today on the basis of practically complete returns from Chicago and representative returns from down state districts.

The same returns indicated that Illinois has sent seventeen Republicans to the house and six Democrats. The results in four other districts were close, with Republican candidates leading.

Representative Mason and former Governor Richard Yates, Republicans, have been elected congressmen-at-large.

On the basis of these returns, Illi-

L. C. Dyer, Republican, has defeated Representative Rosenfeld, Democrat, in the twelfth district; Ed Hayes, Republican, defeated Representative Russell, Democrat, in the fourteenth, and J. V. MILWAUKEE, Wis., Nov. 6.—Former Representative Victor Berger, Socialist, has been elected to Congress in the Fifth Wisconsin district by a plurality of approximately 5,000 votes.

Berger defeated Representative Stafford, Republican, and J. P. Carney. He was indicted at Milwaukee during his campaign, on a charge of violating the espionage act. Berger bitterly opposed America's entry into the war.

DEMOCRATS GAIN ONE CONGRESSMAN IN CALIFORNIA

SAN FRANCISCO, Nov. 6.—Today's early returns indicate that the Democrats have gained one congressman in California.

Henry Hawson, Democrat, is leading H. E. Barbour, Republican, in the seventh district; while in the eighth district Hugh Hersman has apparently defeated Representative E. A. Hayes.

The only other important congressional fight was in the ninth district, in Los Angeles, where Chas. H. Randall, Democrat and Prohibitionist, carrying the President's endorsement, is defeating Montaville Flowers, Republican.

Gov. Stephens, Republican, evidently has defeated Theodore A. Bell, Democrat, by 85,000 to 115,000, for governor. C. C. Young seems to have defeated Jo V. Snyder for lieutenant governor.

NEED OF CO-OPERATION

The flu epidemic in Orange county has emphasized as nothing else ever has emphasized the necessity of some kind of co-operation between city and county health authorities. The same conditions may not have prevailed elsewhere in California, but certainly if they did there is no wonder that the epidemic spread rapidly and continuously.

Each city, as it thought the situation warranted, stopped public gatherings. Generally that was not done until after the influenza had a decided grip on the community. Santa Ana was about the last to act, and while its movies and churches were open, people from towns that were closed down went to those places freely.

Delhi and Dyer early became a center of infection, and they still are. Nobody knows how many cases of influenza there have been or are in Delhi. Whole families have moved from there into Santa Ana and to other points in the county. Mexicans from all over the county rushed in to see the sick, and went back home with the germs. They are still doing it. A Santa Ana physician went into a Mexican home at Dyer a few days ago to see a family in which four were sick. While he was busy no less than fifteen neighbors flocked in to find out what the doctor had to say. There is no bar between Santa Ana, where influenza cases are quarantined, and Delhi, where there is no quarantine, and nothing like effective isolation.

What the Delhi-Dyer section has been to Santa Ana, Los Alamitos has been to Anaheim and Fullerton. Newport Beach reported a few days ago that all the cases it had were brought in from Santa Ana. Fullerton declares its first case came from Santa Ana.

A state health officer was here and had an opportunity to order an effective system for the county, but he did not do it. City and county health officers know that something like systematic control ought to be applied, and they have applied none. It may be that it is no particular officer's duty to call a meeting, adopt a plan and put it into effect, but that is poor consolation in families where people are sick. If no regulations are adopted and ENFORCED to protect cities against each other, in times of epidemic, we are indeed an inane and a helpless lot.

True, whatever regulations are adopted may be dodged to a certain extent, and air-tight protection may not be secured, but one thing is certain and that is that co-operation and an exercise of diligence and the expenditure of money ought to do something to remedy situations such as medical men assure the Register have existed in this county since the first case of flu developed.

OUR NEXT OPPORTUNITY

When there arises an opportunity to help the men overseas and in cantonments, Orange county never hesitates. The determination and delight with which a big war task is approached and done in this county is a joy to every patriot's heart. The results of each war drive bring a thrill of lasting loyal pride.

There is another of those big war tasks before us, and we approach it with confidence. We all know in our hearts that Orange county will raise its quota in the United War Works Campaign. We know it because we have experienced the response of the people of the county on previous occasions. That confidence, however, must not be abused. It is based upon the conviction that bringing home to the people the necessity of a thing results in a patriotic response. In order to bring home the need there is a lot of work to be done, a tremendous amount of work. Every person has an opportunity to help, to give, to enjoy meeting the opportunity. If the opportunity is seized, if each man, woman and child gives as he knows he should give, the necessary totals will be secured. As in every other drive, the individual must face his own responsibility in the matter. His own conscience must make the plea. Without the united effort of a large number of people and the united response of a much larger number, the quota cannot be raised. Let this drive meet with the same spirit that has marked other national drives in which we have participated.

Bavarian royalty threatens to claim the throne if Bill Hohenzollern abdicates. To see a Bavarian bossing Prussia would just about make the Hohenzollern cup of sorrow slop over.

KEEP UP THE FIGHT

While the world waits to see whether or not Germany will send a representative to General Foch for the armistice, the Allied big armies go right on with their argument.

The French Belgians, British and Americans go ahead battering the weary Germans, increasing rather than relaxing their efforts. And we note with special interest the fact that the American troops, holding the most crucial part of the line, where the Germans are fighting hardest to prevent a strategic disaster, are using bigger and more effective guns than have yet been used anywhere in this war.

There is inspiration in the example of our armies. Let the people at home stick to their war tasks in the same spirit, until authoritative word comes that the war is ended, and then we shall soon have the peace we want. We may have six months of war ahead. We hope not; we think not; but we will fight on, just as though we had just begun, until the end is reached.

War Nearing End

(Pasadena Star-News)

The great war nears its end. God alone knows with what profound, inexpressible joy the world will greet the fateful announcement that a just, acceptable, democratic peace has been concluded. No loyal American, no loyal citizen of the Allied powers, wants peace one minute sooner than the time when kaiserism shall surrender unconditionally. Nor does any humane person want the war to continue one moment longer than is necessary to defeat Germany, make her acknowledge defeat and surrender without conditions.

Already the beams of the forthcoming peace are shining over the mountain peaks. But the traveler, bound for the crest of the mountain to look upon the glories there unfolded, does not stop as he nears the top and catches gleams of the glory that awaits him. Rather, he presses on with renewed energy and quickened pace.

So with America in the war. It sees the beginning of the end of the great struggle. But this does not impel it to halt. Quite the contrary. The war is to be pushed with increased vigor so that the end may come sooner. There must be no relaxing here at home, as there is none with the brave soldiers in the field. Let's all help to push the war to a quick and victorious conclusion.

OBSERVATIONS

Josh Wise says: "Too many uv us try t' live accordin' t' some other feller's income."

Emperor Karl thinks of retiring to a mountain residence in Switzerland. Maybe he fears that Wilhelm will send a U-boat at him for quitting.

When Vienna learned of Austria's humiliating surrender, men women and children crowded the streets, cheering, crying, embracing each other in their joy over peace. Let there never be another declaration of war without referendum!

German propaganda resulted in Bolshevism in Russia and now Germany is scared over growing Bolshevism in Germany. Occasionally, evil chickens find their way home to roost.

Some German "statesman" declares, "It's all over." No, not quite. All but the settling.

The Drive Is On

—By Charles B. Driscoll—

Our boys are headed for the Rhine.

The Huns are homeward turning,
And every night the sky is bright
With towns the boche is burning.

Full soon the trail of blight and death,
The patch of devastation,
Will point the way, by night and day,
Across the German nation.

Drive on, brave boys from Yankeealand!
Our hearts with pride are swelling;
Today we dare to do our share
With something more than yelling.

We're going to back you up with cash,
As much as may be needed;
We'll give you guns to beat the Huns,
Till victory is conceded.

The home-front drive is under way;
Your voices seem to call us;
We'll change this thing the Heinies sing
To "Deutschland Unter Alles."

RUMANIA WILL NOT BE OVERLOOKED AT PARLEY

WASHINGTON, Nov. 6.—The U. S. Government has notified Rumania that her separate peace with the central powers would not prejudice her interests at the peace table.

Secretary Lansing wrote the Rumanian charge that the United States would exert its influence toward fulfillment of Rumania's just ambitions. Rumania had feared that she would be overlooked, so a few days ago the Rumanian charge presented a memorandum outlining her aims and suggesting they should be recognized.

PASADENA ALSO PUTS FLU BAN ON OPEN-AIR MEETINGS

PASADENA, Nov. 6.—As a result of the controversy between the Pasadena Pastors' Union, representing the clergymen of the evangelical Protestant churches, and City Health Officer Stanley Black, whom the pastors charged with discrimination in favor of the Christian Scientists, the City Commission decided that no more outdoor church meetings could be held, nor indoor meetings, either, until the epidemic is over and the ban lifted.

The Christian Scientists held an open-air meeting Sunday afternoon by special permission of Dr. Black, who made it a condition that all members of the congregation must sit two feet apart. In announcing the latest rule by the commission, Chairman Hamilton said that not all the persons who attended the meeting obeyed the two-foot rule, and it had been thought best to put the lid on open-air meetings.

LONG BEACH HARBOR AGAIN DAMAGED BY SILT DEPOSITS

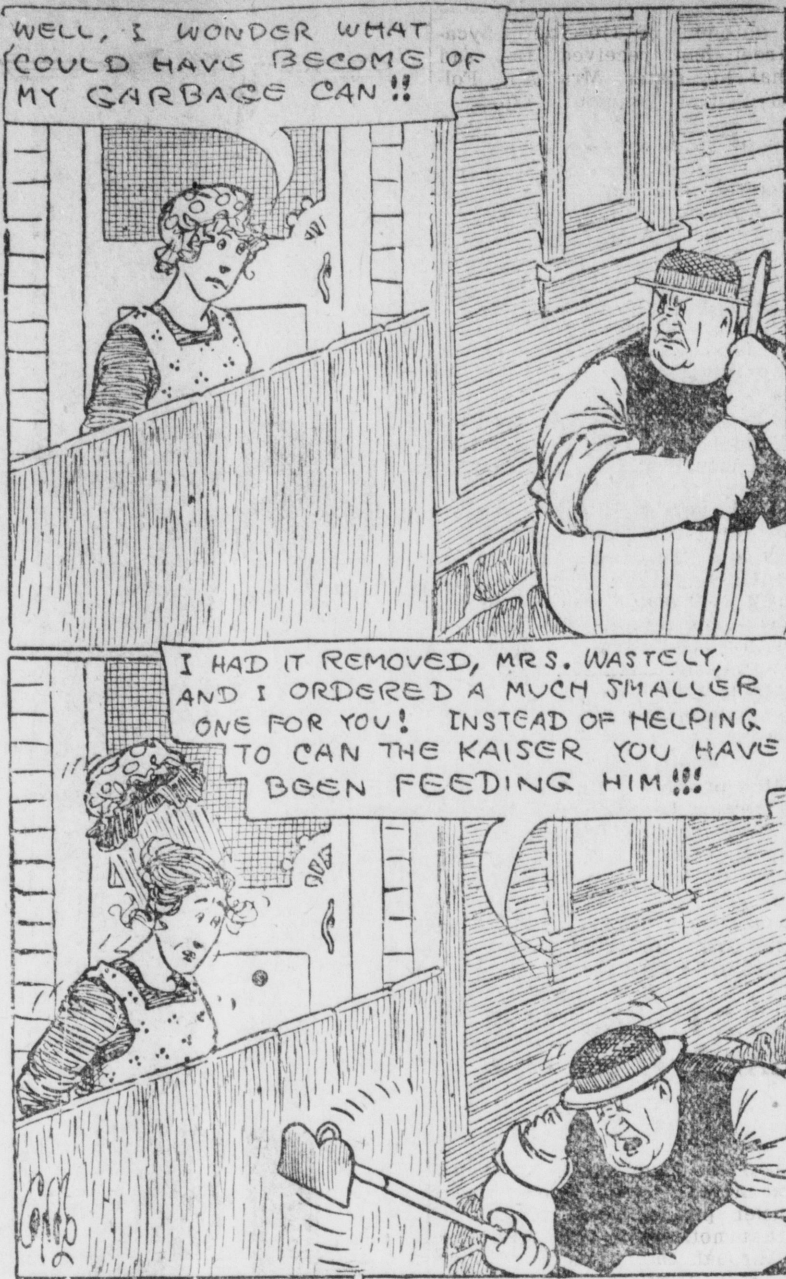

LONG BEACH, Nov. 6.—Forming a bar between channel No. 2 and the local harbor turning basin and seriously crippling the industries located on that slip, silt deposits from the overflow from Owens River, from which Los Angeles secures its water supply, have been pouring into the local port entrance for the past month, it became known today.

The water, it was discovered upon investigation, was coming down through Cerritos slough, through the Los Angeles River, after being poured into the bed of that stream from an overflow of the Owens River in the San Fernando Valley. As a result, where certain channels of Long Beach Harbor were navigable a month ago there is now only four feet of water at low tide.

OUTBURSTS OF EVERETT TRUE

YOU'RE MY SERVICE STAR, WRITES NAVY BOY TO MOTHER

The Home Is the Main Thing on This Side of Death, Says Louis Mecker

A touching tribute to his mother is contained in a letter recently written to her by Louis Mecker, who is in the photographic department of the naval air station, Rockaway Beach, New York. The Meckers were formerly neighbors to Mrs. E. J. Rudnick of Santa Ana.

In his letter, published in the Perry County (Mo.) Republican, Mecker writes:

"Listen, mamma. You said you were making your service flag. Aren't you proud that you can have four stars in it? Not many women can put up a flag like that. Four stars—that means you are serving your country 100 per cent. From what Herman and Eddie wrote, you are not worrying; and that is good if it is true. You ought to be ashamed to worry, you ought to be too proud for that. Look how good God has been to you! He gave you four sons and every one of them is a great big, tall, healthy American. And they are all four yours! Mamma, you have never gone around much in the world, but you have had a rich life. You tried to and you did make the home the really big, fundamental, important thing in life. And you were right. The home is the main thing on this side of death. After knocking around over half of the United States for a year, I can see more plainly than ever that a rich home life, such as you have had, is the only kind of because you must be alone. Remember because you must be alone. Remember that always your soldiers and sailor deeply realize and appreciate what you are to them. We are proud of you. And if you should happen to lose one in the war, remember that you are still rich, very rich, with three, or with two. And remember that what He has given you He has a right to also take away. I am sorry that I cannot wear a service star for you, but you are my service star. For me you have been in the service since the day I was born. And do not think that I write this because I am homesick or because I am first now realizing what a man's mother means. Neither is the case. I'm not homesick at all; and I knew all of this long before I ever left home. I'm simply telling it to you at this time because I fear you may forget or lose sight of these things. So keep these points in mind and be happy."

Some day we are all going to meet again, and over a nice dinner of fried chicken we will swap war yarns and renew memories of the old days when the four mules used to raise the dickens around the house.

Lovingly,
—W. S. S.—

CITRUS ESTIMATES BELOW ACTUAL CROP

Good news for the orange growers in Los Angeles, Riverside and Orange counties comes after careful inspection of the past few days by agents and brokers from this and other cities. It is the general opinion of these gentlemen that the figures of the government, of a 56 per cent crop of navel and of an 82 per cent crop of Valencia, for California, does not do justice to the three counties referred to. For the crop is going to be much larger than the government figures state, writes Charles Haskell in the Los Angeles Examiner.

In Riverside county, at least, it is alleged, many groves show more than

a 10 per cent increase over the government estimate. If frost or bad weather does not work damage, a few groves may do better than the revised estimates.

In fact, some of the growers believe they will have the largest crops in many years. The fruit is firm, of the best color, free from blemish and weighs out splendidly. In some sections of this district a pest has caused damage, but there has been no general loss from this cause.

One of the best-posted men in the orange game in this vicinity is William P. Pann, who has just finished a three weeks' course of investigation. He is more than pleased with the prospects. He is quite sure the government has underestimated the yield. The experienced growers whom he visited and conversed with agree with him on this point. They do not pretend to claim a bumper crop for the entire southern part of the state. But there are many groves that will yield more of the best grades of oranges this season than at any time in their history. He says:

"The great scarcity of labor, which annoyed the packers terribly this season, even with the very small crop we had, will, I believe, make it difficult to move the coming season's crop, although no doubt a way will be found to handle it. Scarcity of labor, however, should result in keeping the shipments down to such a point at all times that the markets will not be oversupplied, hence we should enjoy good average prices throughout the season."

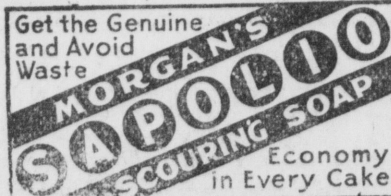

"A few of the buyers who made money last year by speculating have lost their judgment and are determined to give back to the growers the profit they made. Whereas the Exchange pools its fruit, in some cases monthly, in others quarterly, and in others semi-annually or annually, these speculators, as a rule, have an annual pool in which they absorb the profits one year themselves and the following year turn the profits back to the same or other growers, generally different ones."

"For instance, I know of a crop that was sold a few days ago for \$5000 cash, on which there is no more fruit than there was last season. Had the entire crop been marketed at or near the highest market that has prevailed, it would not have netted \$5000. In addition to this, the buyer takes all the risk from the frost, wind or other causes. Quite a number of crops have been purchased on a basis about the same as this. It seems a lot of the speculators figure that because they were able to get \$4 to \$5 a box for navel this season that the price would be duplicated next season. They do not stop to figure that, according to the very latest estimates, the price to five times as many navels to market this year as we had last year. The question is, will these speculators be wiser but poorer men a year from now, or, with at least four crops of navels for every one that we had this season, will be able to duplicate this season's prices the coming season?"
—W. S. S.—

All varieties of rice have been planted in the Blevins-Mallon project of 10,000 acres between Colusa and Maxwell, Cal., and some valuable experiments are being worked out for the benefit of the entire State. The harvest is well under way and the yield is large.

On the A. T. Clutter ranch, near Lancaster, has been grown a fine crop of cane sorghum. There will be a sorghum mill at Lancaster next year. Many ranchers plan to grow their own sweets and use the byproduct for stock feed.

Automobile bodies made experimentally of concrete reinforced with steel wire are said to be stronger and lighter than wooden ones.

War Lockets
Women who have soldiers at the front need not cut down cherished photographs so that they will fit in small lockets. The new war lockets are of goodly size—just as they were in Civil War time, when every woman wore a picture of husband, son or sweetheart, and lockets grew to be as large as a demi-tasse saucer. Many of these large lockets have mirrors inside one lid and the soldier's photograph is fitted in the other lid.

So whenever one looks to see whether her hat is on straight, she has a glimpse of her best beloved, and whenever she gazes at his pictured visage a fleeting glimpse assures her her own appearance is faultless. The outside of the locket is usually of plain gilt, with a smart monogram in the center.

Oven and Toaster
The combination toaster and portable oven will save you money by saving fuel. It consists of three parts—a square sheet iron toasting plate, an asbestos-lined stand and a box-like cover with a steam vent in the top. After the first few minutes the heat can be reduced at least one-half. The oven is admirably adapted to slow, prolonged cooking, as of casserole dishes or baked beans. If too high to go on the stand, the baking dish may be set on an asbestos mat placed directly on the toasting plate. There are several similar excellent devices on the market.

Old Table Linen
Old linen is almost priceless in illness. The thin serviettes are so soft for cold pads and compresses. The worn tablecloths make excellent bandages and if cut up into pieces as required are invaluable for dressing burns.

In infectious diseases they can be cut up for tray cloths and covers for table and chest drawers, while the serviettes can be used for trays and when dirty can be burned.

NEW CITY CHAIRMAN

Owing to the fact that J. C. Burke will be compelled to give his whole time next week handling the questionnaires of new draft men, the Exemption Board has asked that he be released from the leadership of the United War Workers' campaign in Santa Ana. When he agreed to head the committee it was not thought that the men would be called in to fill out their questionnaires until a later date. The county committee of the War Work campaign has yielded to the request of the Exemption Board and appointed Harvey A. Gardner to take the chairmanship of the Santa Ana committee with the assurance from Burke that he will aid to the full extent of his ability and time. This necessary change at this late date will put quite a burden on City Chairman Gardner and it is urged that everyone render him any aid he requests.

Need More Pressing

The fact that the War seems to be practically over only adds to the necessity for a more generous contribution to the War Work fund since the work of the allied organizations will be intensified after peace is declared and the boys are compelled to remain and do police and guard duty in Europe for a couple of years with the excitement and incentive of active warfare removed.

NEWS IN BRIEF FORM

J. G. Mitchell, of 310 South Sycamore street, has received the sad news that his sister, Mrs. Ann Pollett, had died at Fairmont, Minn.

A broken shoulder and a fractured left arm resulted Monday on North Lemon street, Anaheim, when Robert Ware of Fullerton collided with W. S. D. Laurie, who was riding a bicycle, the latter suffering the injuries. According to the report made by Ware to the police department, he was driving south in his car and was only using oil lights as his electric apparatus was out of commission. Ware claims Laurie's bicycle did not carry lights and owing to his poor illuminators he did not see Laurie and collision was almost unavoidable.

George M. Tedrick of Anaheim has sold his seven-acre citrus grove on North Citron street, in that city, to Mr. Correllus of Colorado, who with his family, will make it their home. Mr. Tedrick has bought and will move onto the five-acre citrus ranch which he has purchased from Mrs. Baird, S. Palm street, also in Anaheim. This property contains a modern six-room bungalow.

A letter has been received from John Jacobs, who went to France with a motor truck company, that he is enjoying seeing the sights in that interesting but war-torn country.

E. M. Nealley suffered a fracture of his right arm on Monday evening while cranking his automobile.

OFFICIAL RULING ON SUGAR PURCHASE HERE

C. S. Crookshank, county food administrator, today received official notification that the sugar allotment has been increased from two to three pounds per person per month, and issues that notice to the public and dealers through the Register. Under the new rule, families may purchase their complete month's allotment of sugar at one time.

Dealers are required to secure the name, address, number of pounds purchased and number of persons in the family when each sugar purchase is made and these reports are sent monthly to Mr. Crookshank's office. Unless this is done promptly, the dealers may find themselves without a sugar supply.

"FLU" INCREASES READING

POMONA, Nov. 5.—That the "flu" acts as an incentive to good reading would appear from the report of Librarian Miss Sarah Jacobus, which was presented to the library board. This report shows that there were 500 more books taken from the library in October of this year than there were in the corresponding month last year.

THREE GENERATIONS OF WOMEN

For three generations women of this country have used and recommended to their children and children's children the use of that famous old root and herb remedy, Lydia E. Pinkham's Vegetable Compound, until today it is recognized everywhere as the standard remedy for women's ills. It contains no narcotics or harmful drugs; is made from roots and herbs of the field under the most sanitary condition, and any woman suffering from such ailments should be sure to give it a trial.—Adv.

BLYTHE, Nov. 6.—By a special dispensation announced as an emergency clause by the Federal government, Blythe and the whole Palo Verde Valley is now allowed to go ahead and build all the new houses needed, not to exceed \$2500 each. MOTHER, BABE TO BE BURIED TOGETHER

Mrs. Geo. Cook of Irvine Dies Today From Spanish Influenza

Mrs. George Cook died today at her home at Irvine of influenza, following her little baby to the Great Beyond. Friday, mother and babe will be laid to rest in the Fairhaven cemetery. The funeral of the little one was to have been held this morning, but interment was postponed so that both might be laid away together.

Eight deaths are reported for this section in the twenty-four hours up to noon today. Three occurred in Santa Ana, one at the county hospital, two at Delhi, one at Los Alamitos and one at Irvine.

Deputy Health Officer Chandler today quarantined six houses with eleven cases and released nine houses with 14 cases. Chandler gives warning that hereafter no case will be released under ten days from the date of quarantine. He has found that many people in a family where there is flu and who have not themselves been afflicted have requested that the ban be removed because the disease has been conquered in the family, and investigation resulted in finding that members of the family were still in bed. The 'ten days' quarantine will be absolute and no favoritism will be shown.

The city health board will meet tomorrow, when the matter of establishing some kind of a quarantine at Delhi will be discussed.

At the county hospital Lucia Barbara, 1106 Cypress, died last night, being brought to the institution late yesterday afternoon. Two new cases were brought to the hospital, one from Santa Ana and one from Buena Park.

A family of Mexicans has been reported in as afflicted, with a baby dead and the body placed on the back porch. The family is destitute and will probably be taken to the county institution.

Reports from other parts of the county indicate that the epidemic is on the decline.

MYSTERY CASE WOMAN MAY HAVE BEEN HERE

Deputies connected with the sheriff's office here are satisfied that Bertha Wiswell, known in Los Angeles as Mrs. Bray, was the same woman who was in jail in Santa Ana for twenty days, July 22 to August 10, for vagrancy. Mrs. Bray died in Los Angeles, supposedly of influenza. Recently Edward J. Bray was arrested on suspicion that he had killed her, the police having a report that friends of the woman found a note in which she accused Bray of being the cause of her dying condition. Today the body was to be exhumed for examination.

The picture of Mrs. Bray is declared by deputies here to be the picture of the woman who served a term here under the name of Bertha Hammer. She was arrested at Anaheim with Charles Palmer of Los Angeles. Palmer got 100 days and a fine of \$100 for vagrancy, and the woman got twenty days. Palmer contracted influenza in the jail, and died at the county hospital on October 17.

Smith Feels Like New Man Since Taking Tanlac—Suffered for Thirty Years

One of the strongest and most convincing evidences of the popularity of Tanlac throughout America is the large number of letters that are being received daily from well known men and women, telling of the remarkable results they have derived from its use.

Among the many received in the past few days is one from John Smith, 313 Eighth street, Richmond, California, which is especially interesting. Mr. Smith states that he had suffered for twenty years, with his stomach, liver and kidneys, and had reached the point where he wished each breath would be the last. He also says that when he began taking Tanlac he weighed only one hundred and forty-eight pounds, but that he now weighs one hundred and sixty-six—making a gain of eighteen pounds—and that he feels like a new man.

Following is his letter in full: "To whom it may concern: 'I, the undersigned, can truthfully say that the wonderful medicine known as Tanlac has done more for me in thirty days' time, than any other medicine I have ever taken before in all my life. I have been a sufferer from stomach, liver and kidney troubles for twenty years. I have taken six bottles of Tanlac, and today I feel like a new man.

"Before I started using Tanlac, it didn't make any difference what I would eat or drink. It distressed me so much that I wished the next breath would be my last. Also when I started taking this wonderful medicine, I only weighed one hundred and forty-eight pounds. Today I weigh one hundred and sixty-six pounds—have gained eighteen pounds already—and am still gaining. Also before taking Tanlac I couldn't sleep either night or day, but now I average about nine hours steady sleep and I have an appetite like a horse. I am now fifty years of age and I can't praise Tanlac too much for what it has done for me."

"Tanlac is sold in Santa Ana by Rowley Drug Co., in Fullerton by G. W. Finch, in La Habra by R. H. Hilbert, in Huntington Beach by Rigdon's Pharmacy, in Orange by Dittmer's Mission Pharmacy, in Placentia by A. J. Robinson, in Tustin by Tustin Drug Co., in Brea by Brea Pharmacy, and in Buena Park by Regal Drug Co."—Adv.

EL MODENA MAN IS WOUNDED IN FRANCE

"I think I will come out in the casualty list as missing, but don't worry, for I am at a hospital sleeping between two white sheets," writes Corporal Louis Arambel of Co. D, 364th infantry, to his parents, Mr. and Mrs. B. Arambel of El Modena. "Now I got out of it is more than I can understand. I had about a dozen close shaves and I don't need any more shaves for a long time. You ought to have seen those Huns run, and they haven't stopped yet."

No details are given in the letter to show the nature of Arambel's wound. He wrote that he does not expect to be able to return for some time to his company, which, he writes, is "just like a cyclone had hit it."
